

# Foster Parent College: R.A.D. (Reactive Attachment Disorder)

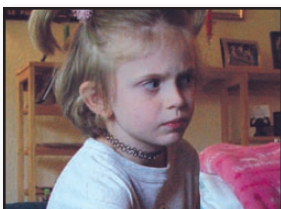

Attachment, or how we connect with others, is the cornerstone of social development. Attachment is shaped in infancy and young childhood and being raised in an unstable environment can a child's ability to form healthy attachments.

In this course, Dr. Richard Delaney explores the symptoms and types of R.A.D. with a parent support group and offers strategies for dealing with this complex disorder. Topics covered include distinguishing between healthy and unhealthy attachments, emotionally promiscuous R.A.D, hyper-vigilant R.A.D., and R.A.D. and other diagnoses.
